

## Asset Builders Alliance Partner Agreement

Asset Builders Alliance seeks to mobilize the community around the 40 Developmental Assets framework. By partnering, we can ensure that more young people have the needed support from organizations in this region.

Asset Builders Alliance partners embrace, model and promote the developmental assets approach throughout their spheres of influence. We believe...

*Collectively we can do more than we each can individually.*

As an official partner your agency agrees to:

- Embrace positive youth development through the intentional use of the Search Institute's 40 Developmental Asset framework in your work;
- Promote and attend training and networking sessions related to asset building;
- Serve as spokespeople to strengthen the Asset Builders Alliance;
- Participate in one of the committees that carry out the work of the Alliance:
  - Alliance Operations Committee
  - Sub-Committee: \_\_\_\_\_ (training, data, etc.)
  - County Alliance \_\_\_\_\_ (name county)
- Share resources when possible by leveraging training, technical assistance, website links and publications.
